Hello,

I'm Corey Byrum. I'm a Front End, UI/UX Engineer based out of San Francisco, California. I have experience building and maintaining component libraries, archotyping new solutions and initiatives, and working on large teams in an agile environment.

I'm passionate about user experience, whether that's existential or direct, it's gratifying to be able to create an impact.

Skills

JavaScript

Interaction, structure, and capability

ES2020, ES6, JQuery, NextJS, React
Jest, Enzyme

A focus on performance, readability and reusability through componentized development

CSS

Presentation, style, and interaction

SASS (SCSS), CSS, LESS

Sketch, XD, Figma
